Vocal Music

Music education for every child is the aim of the public school music course. This is achieved through a five-fold program of music activities and experiences; singing, rhythmic activities, listening and creating.

Classes meet two times a week. Any extra time is encouraged and used at the discretion of the room teacher.

Band

The band program was introduced into our school last year. There has been good response to the band this year. Instruction is available free of charge by the Maroa Unit Instrumental teacher. Several of the larger, costly instruments which are owned by the school unit, were made available to students. Other students purchased their own instruments.

CLEAN PLATE CLUB

We decided to organize a "Clean Plate Club" in our first and second grades this year.

We have benefited from it in many ways and it has grown into a health project.

The children are not asked to eat something they do not want, but to belong to the club they must clean up their plate.

After we return to our room, each child who has cleaned his plate is awarded a star on the paper plate on our bulletin board.

They are very proud of the results shown and especially of an increase in weight.

OUR MOTTO: I Am Growing Up.

When I was very young, I played with my food.

Now I am big. I eat my food.

Basketball

We began basketball practice the first of October. There was alot of enthusiasm among the boys this year. We had twenty boys that came out for basketball.

We practiced on our outdoor court during the month of October. Early in November we began going to Maroa on Tuesday and Thursday evenings to practice in the gymnasium.

The boys worked hard and with a great deal of pep to get into shape for their first game with Maroa on November 29. It was a good game with everyone putting forth much effort to win. The "B" team won their opener. The "A" team lost their opener in an overtime by three points. These games spurred the boys to continued progress and victory.

Although our team hasn't been in the win column too often; we take pride in mentioning the good sportsmanship-like attitude our boys maintain in a win or a defeat.

We appreciate the fine spirit of parents who helped transport the boys to Maroa for practice. Many trips had to be made to take the boys to practice and then pick them up after practice. To these parents we want to express our sincere thanks.

 SCHOOL OUT VACATION ! ! ! !

Marla: Why is the man in the moon always broke?

Linda: I don't know. Why?

Marla: Because he never has more than four quarters.

Mr. Deibert: What did Franklin say when he discovered electricity?

Harry: Not a word. He was too shocked at the whole thing.

Meteorologist - A man who can look into a girl's eyes and tell whether.

Throw rug - Any small rug that throws anyone who steps on it.

Conscience - The still small voice that makes you feel still smaller.

Joyce: (Arriving late at a basketball game) Linda, What's the score?

Linda: Nothing to nothing.

Joyce: Oh goody! We haven't missed anything.

Tax collector: You should pay your taxes with a smile.

Mr. Guyer: I'd certainly like to, but you insist on cash.

Mr. _____: I've had this car for five years and never had a wreck.

Mechanic: You mean you've had this wreck for five years and never had
a car.

Teacher: John, have you read Freckles?

John: No, ma'am, mine are brown.

Visiting Friend: When is your sister thinking of getting married?

Little Brother: Constantly.

Farmer: I get 45 miles to the gallon.

Stranger: Whew! What kind of gas do you use?

Farmer: I don't use gas. I just give my mule a gallon of water and she's
good for 45 miles.

Teacher: Tell me who discovered America?

Johnny: Why, it was Ohio.

Teacher: Ohio? Why surely you haven't forgotten it was Columbus?

Johnny: No ma'am. But I didn't think it was respectful to call him by his
first name.

Big Sister: Did you know that the earth and the moon have the same sun.

Little Brother: No, I didn't even know they were married.

Mrs Hoyland: That's the fourth time you've gone back for refreshments.
Aren't you ashamed?

Howdy: Oh no, I just tell them they're for you.

Schmoe: We're hunting for lions.

Moe: But there aren't any lions around here.

Shmoe: I know. That's why we have to hunt them.

Paratroop trainee: What happens if my 'chute doesn't open?

Instructor: You return it to the supply sergeant.

Teacher: Now, Tommy, tell us where elephants are found.

Tommy: I thought elephants were such big animals they hardly ever got lost.

Sign on a laundry - Don't kill your wife -- Let us do the dirty work for you.

Customer: How much are your \$12. shoes?

Clerk: Six dollars a foot.

As the motorcycle roared down the road, the old mountaineer blinked his eyes at the strange contraption, then raised his trusty squirrel rifle and fired. "Did ye kill it, paw?" asked his little son. "Not yet. I can still hear the critter growlin', answered the mountaineer, but I shore made it turn that man loose."

Barney: That's a queer pair of socks you have on - One red and the other green.

Peter: Yes, and the queerest thing is I've another pair just like these at home.

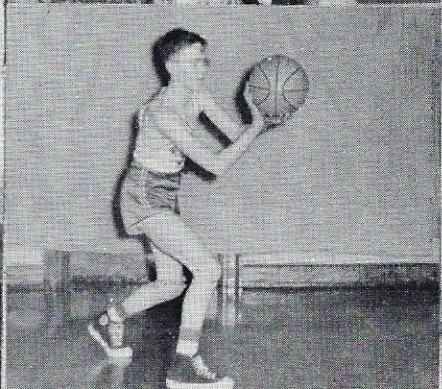

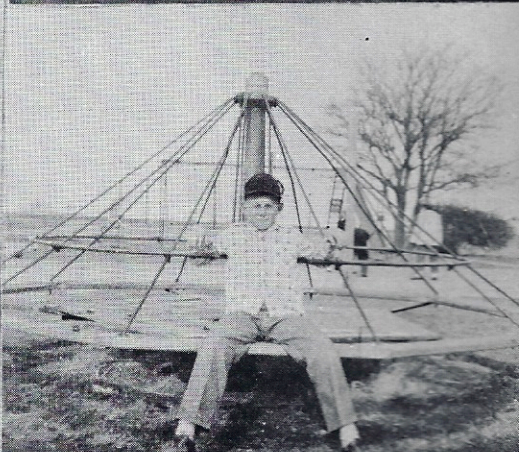

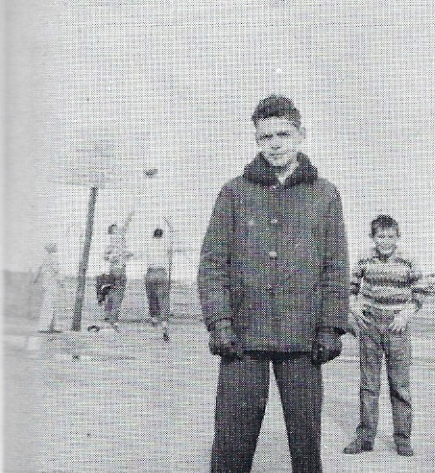

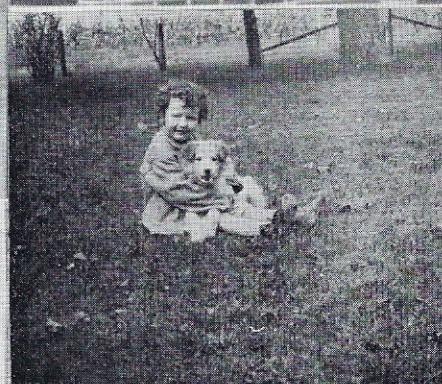

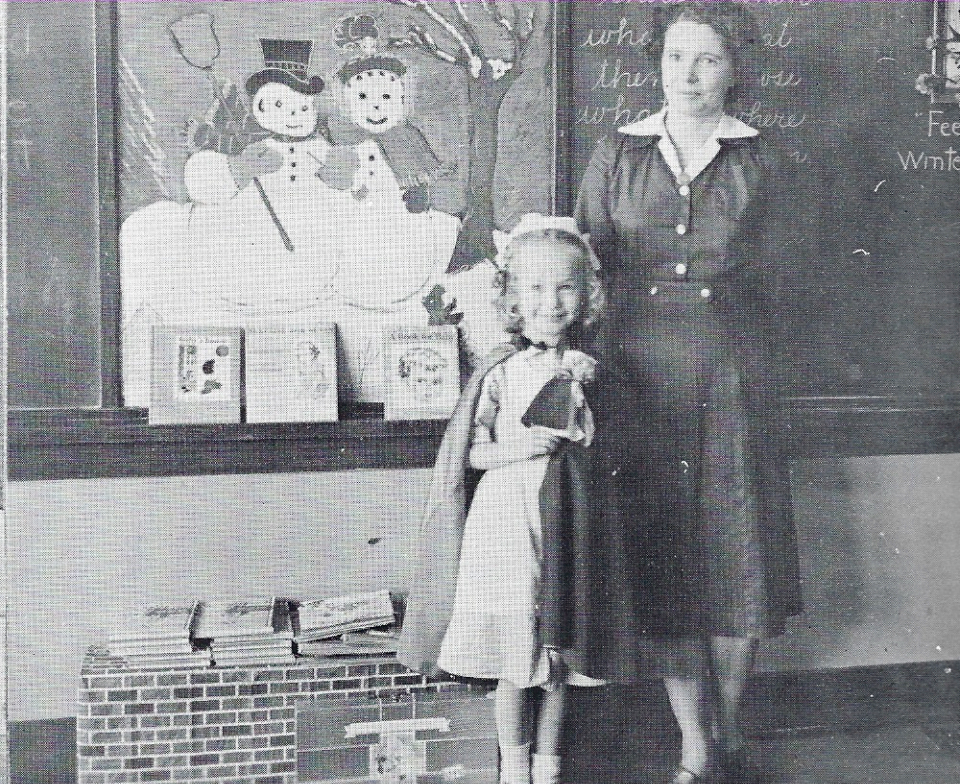

Millie: If you don't stop playing that saxophone I'll go crazy.

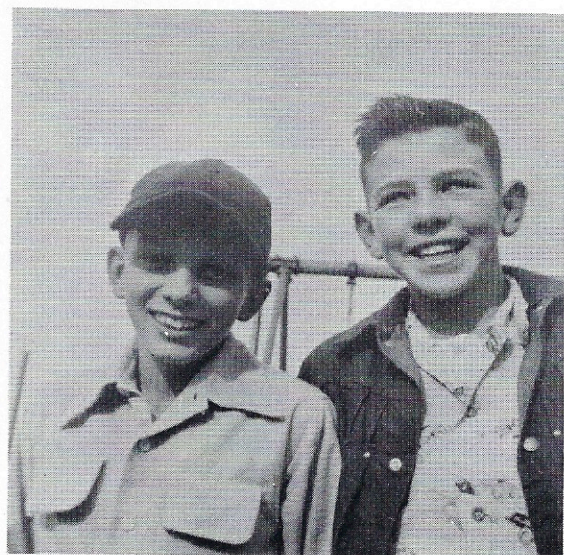

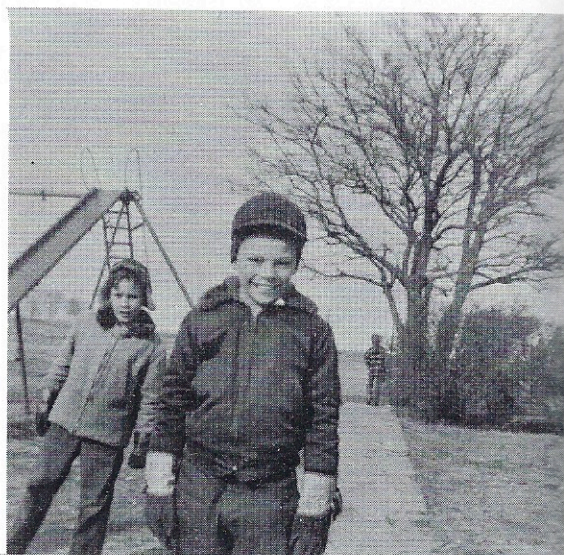

Willie: I guess it's too late. I stopped an hour ago.

Scotchman: (At riding stable) I want to rent a horse.

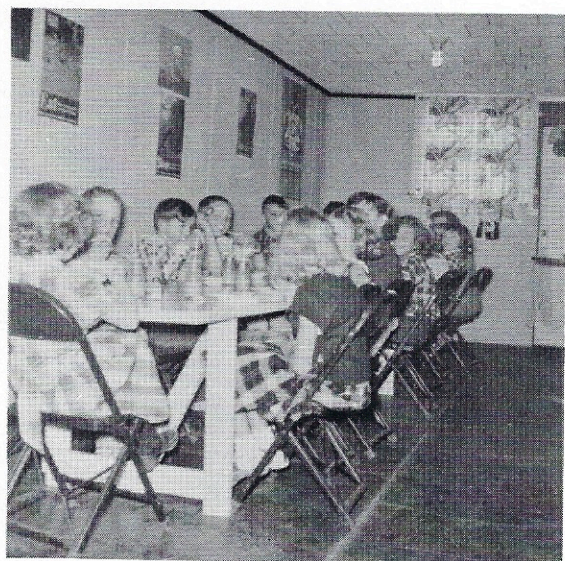

Stable Owner: How long?

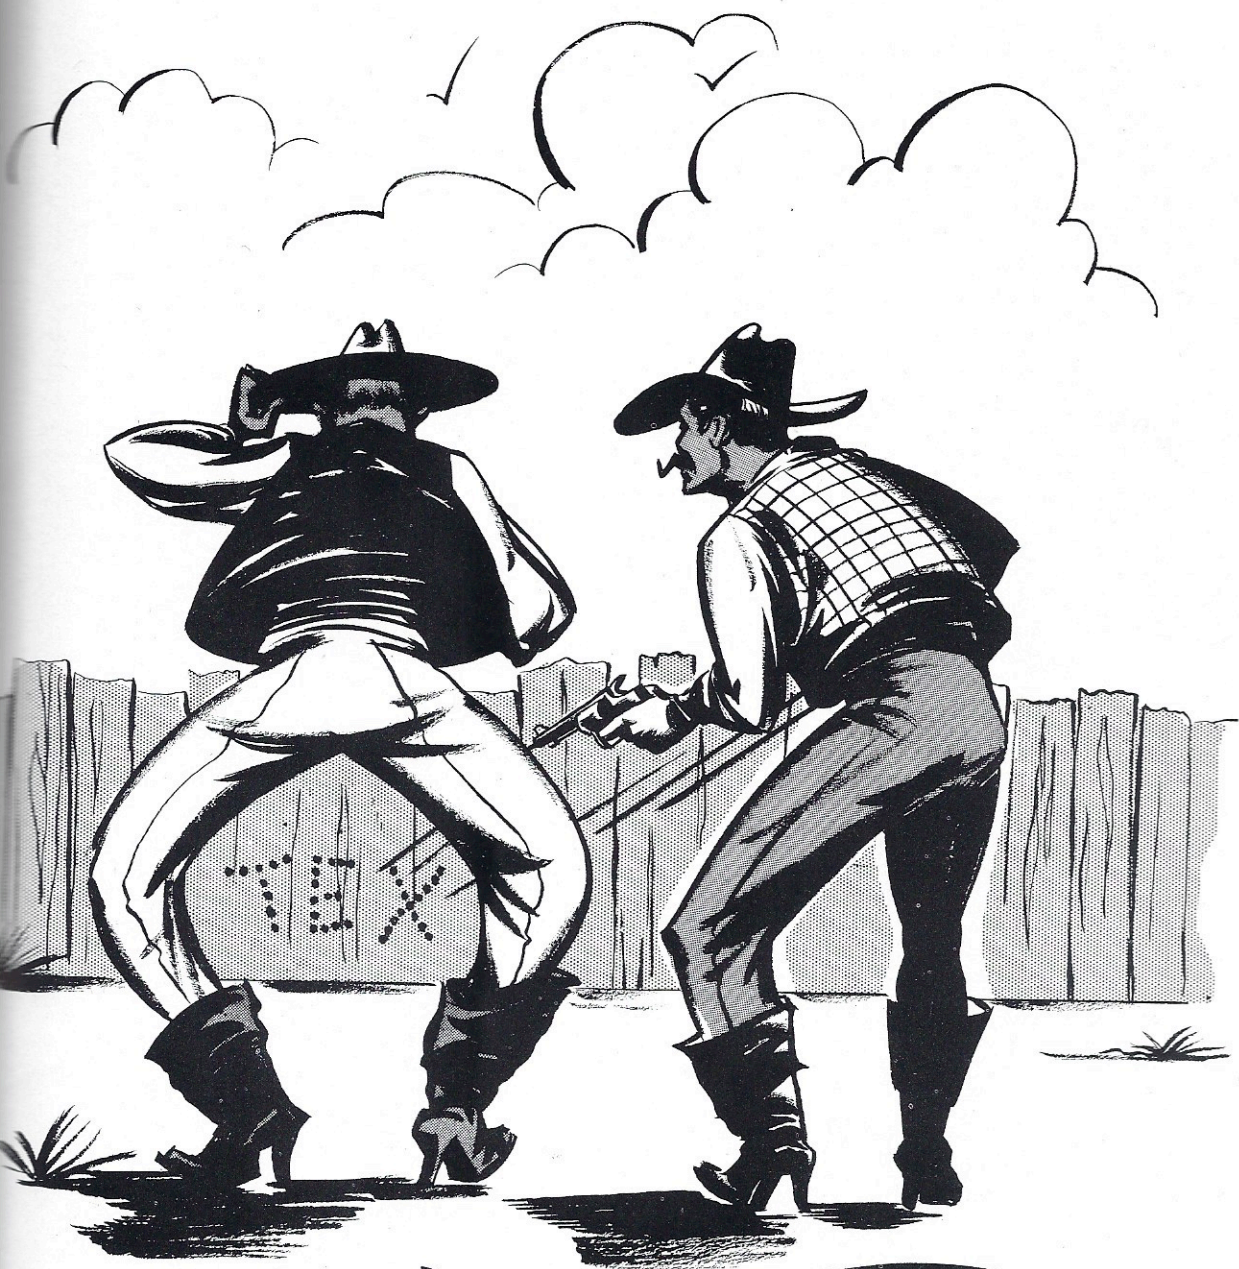

Scotchman: The longest you have, Laddie. There'll be five of us going.
